RUST-RESISTING WHEAT.

THE Department of Agriculture have for free distribution in quantities of half-bushels, amongst farmers who grow wheat upon their holdings, a certain amount of wheat which has stood many experiments for its rust-resisting qualities. The wheat, which has been experimented upon by Messrs. Joyce Bros., Dalby, and by Dr. Bancroft, is of three varieties—Indian Bearded, Indian Beardless, and White Wheat. All have been proved rust-resisting on high land, whilst the former has been tested on low scrub land. Subjoined is an extract from letters received on the subject. Applications for this wheat to be lodged with the Land Agents at Warwick, Toowoomba, Dalby, Roma, and Allora.

EXTRACT FROM LETTERS RELATIVE TO RUST-RESISTING WHEAT FOR DISTRIBUTION BY THE DEPARTMENT OF AGRICULTURE.

"From Joyce Bros., Cregmore, Dalby, to Under Secretary for Agriculture.

"There is no doubt as to the rust-proof qualities of the wheat, Dr. Bancroft having tested it for years, and his only doubt being the rich black soil of the Downs; and last year, which was a very rusty year, we tested between lines of very rusty specimens and it was perfectly clean. Some Victorian farmers who were here as delegates to inspect land pronounced it as the only perfectly clean straw they

had seen in Queensland. Messrs. Kates and Hayes, of Allora and Warwick, have both certified to its being good milling wheat, and offered not only last year, but this, top market quotations for milling purposes, although it is well known that millers usually object to the ordinary samples of Indian wheat as being too vitreous; also, in a leader some time ago, *re* rust-proof wheat, in the *Warwick Argus*, special mention was made of the excellent quality of flour made from our samples of wheat by Mr. Hayes. We have also found the wheat very hardy, and although it has been a very dry spring here it yielded well."

Date of letter, 5th January, 1888.

Remarks.

The most striking feature of this period was produced by the development of that type of low barometric pressure known as a "V depression" between Australia and New Zealand. The apex of this disturbance reached Brisbane, thus causing clear skies, strong westerly winds, an intensely dry atmosphere, and local dust-storms around the city and over south-eastern Queensland. The westerly wind was the current sweeping round the northern side of the inverted "V" in perfect accordance with Buys' Ballots law. It is now well known that this type of atmospheric disturbance which produces hot northerly winds in the southern colonies, followed there by heavy cloud masses, rain, and south-westerly gales, causes bright and cloudless skies in the neighbourhood of Brisbane. The mean temperature of the Brisbane River about 9 a.m. at Kangaroo Point was 79.2, or nine-tenths higher than last week, a result probably owing to the continued absence of rain.

was influenced by the conditions on the north-eastern side of the nucleus. The mean temperature of the Brisbane River, at 9 a.m., at Kangaroo Point, was about 75.7, or eight-tenths of a degree lower than last week.

Government Meteorologist.

* Five weekly synopses are purposely published together, in order that the values may be readily compared.

† All values are corrected for index error if necessary. The Observatories are conducted entirely in accordance with the Rules of the Royal Meteorological Society. The Brisbane Observatory is on Wickham Terrace, 140 feet above sea. The Observing Station at Bulimba is in the River Valley, about 20 feet above sea. The Station at Kangaroo Point is on the right bank of the river, about 15 feet above sea. The Station at Taringa is about 130 feet above sea. The new Observatory Station at Albion is "Fernmount."

ON SALE, at the Government Printing Office, William street, Brisbane, the Acts and Orders relating to the Jurisdiction, Practice, and Pleading of the Supreme Court of Queensland (on the Crown Side), arranged with notes by The Honourable George R. Harding, one of the Justices of that Court. "The Rules of the Supreme Court (Crown Side), 1887," have just been promulgated and published in a *Government Gazette* for general information, and advantage of this opportunity has been taken to collect, in a convenient form, the Statutes of the Colony relating to the jurisdiction, practice, and pleading of the Court on the Crown Side. This has been done by incorporating them with the Rules, in what appeared to be their appropriate places or under substantive titles.

A full and complete Index has been printed in Roman and Italic type. The Roman refers to the Rules, the Italic to the Statutes and Notes.

Marginal notes have been furnished to all the Rules; and under such marginal notes, and those to the Statutes, have been given, as far as practicable, references to the corresponding English Rules and Statutes, and when the Rule is founded solely on a pre-existing Queensland Rule, to that Rule.

For facility of reference have been added Tables of "The Rules of the Supreme Court (Crown Side), 1887," Appendices to same, Substantive Titles, Miscellaneous Forms, Summaries of Particular Subjects, Cases, and Crimes of the most Frequent Occurrence, with their Punishments, etc.; also a Tabular Statement of Statutes, cited both by their years and short titles, and *vice versa* by their short titles and years; a Tabular Analysis of Queensland Statutes, both with reference to the corresponding English and Queensland Statutes printed in the text. But with reference to the pages in the latter analysis of the Queensland Statutes the figures are printed in Roman and Italic, the first indicating that the sections are set out in full, the latter that the sections are only cited; and similarly in the Tabular Analysis of English Statutes, the Roman figures indicate that at such pages the corresponding Queensland sections are set out in full, while the Italics denote that the English section is cited; and when no page is given the English section is not referred to in the text. The citation of the corresponding Queensland section may be found by reference to the Tabular Analysis of Queensland Statutes.

The whole is uniform in its general arrangement with the Statutes and Orders on the Civil Side, published in 1885.

SATURDAY, 14TH APRIL, 1888.

[No. 81.]

PROCLAMATION.

By His Excellency Sir ANTHONY MUSGRAVE,
Knight Grand Cross of the Most
Distinguished Order of St. Mi-
chael and St. George, Governor
[L.S.] A. MUSGRAVE, and Commander-in-Chief of the
Governor. Colony of Queensland and its
Dependencies.

IN pursuance of the authority in me vested, and in accordance with the provisions of "*The Mineral Lands Act of 1882*," I, Sir ANTHONY MUSGRAVE, the Governor aforesaid, with the advice of the Executive Council, do, by this my Proclamation, notify and proclaim the following Additional Regulations are now in force:—

1. The holder of a mining license desirous of prospecting for minerals other than gold or coal may mark off and hold any Crown lands not exceeding the dimensions next hereinafter set forth, as a provisional protection area:—

- (a) Beyond the limits of a mining district, for the purpose of prospecting for tin, silver, or antimony, 80 acres; and for the purpose of prospecting for any other minerals except gold or coal, 160 acres;
- (b) Within the limits of a mining district, and more than ten miles from the nearest mine, other than a gold or coal mine, in or upon which mining operations at the time of such marking off are, or within a period of six months next preceding such marking off have been, carried on, for the purpose of prospecting for any minerals other than gold or coal, 40 acres;
- (c) Not more than ten miles, and more than five miles, from any such mine, for the purpose of prospecting for any minerals other than gold or coal, 20 acres;
- (d) Not more than five miles, and more than one mile, from any such mine, for the purpose of prospecting for any minerals other than gold or coal, 10 acres.

2. A provisional protection area shall be marked off as an equilateral rectangular block.

3. All provisional protection areas must be marked by driving at each corner a barked post not less than four inches in diameter, standing firmly in the ground at least three feet above the surface, and set in L trenches not less than three feet in length, one foot in width, and six inches in depth, marking and denoting each boundary line; such posts to be kept at all times uncovered.

4. Such marking shall be deemed a sufficient title for fourteen clear days, subject to the labour conditions hereinafter prescribed, after which period such provisional protection area shall be registered or be liable to forfeiture. Such registration shall be renewed monthly, but the Commissioner may, by a certificate, exempt for a specified period any provisional protection area from the necessity for such renewal.

5. Immediately after such registration a notice shall be posted and kept posted on some conspicuous part of the area, with the names of the holders, the numbers and dates of their respective mining licenses, the date on which the area was marked off, and the date of registration. The date of every renewal of registration, if any, and of every certificate of exemption from renewal of registration, must be posted and kept posted in like manner.

6. Every provisional protection area shall be worked continuously on every ordinary working day, commencing on a date not later than two working days from the date of such marking off, with at least half the number of miners whose names appear on the notice as the holders of the area. Any provisional protection area not so worked, or on which any work other than *bonâ fide* prospecting for minerals other than gold or coal is being carried on, shall be liable to forfeiture.

7. Within fourteen days after the finding of any mineral other than gold or coal in apparently payable quantities within any provisional protection area, the holder or holders thereof shall report such finding, at the office of the Commissioner, under pain of forfeiture of such provisional protection area.

The Commissioner shall thereupon proceed to the ground, and if, in his opinion, any such mineral shall have been found in payable quantities, he shall register such area in the name of the holder or holders as a reward claim, or accept his or their application for it as a reward lease, as hereinafter provided.

8. All such reward claims shall be worked by a number of miners equal to the number of the registered holders thereof within forty-eight hours after registration.

Reward leases.

9. If the discoverer or discoverers elect to apply for a lease, he or they shall be entitled, on payment of the specified fees, and subject to the General Regulations and the approval of the Minister, to take up a mineral lease of the area, and on the labour conditions following:—

- (a) Beyond the limits of a mining district, 80 acres, to be worked with a number of miners equal to one-half the number of registered holders;
- (b) Within the limits of a mining district, and distant more than ten miles from the nearest mine as specified in Regulation No. 1, 40 acres, to be worked with a number of miners equal to the number of registered holders; if distant more than five miles and less than ten miles, 20 acres, to be worked with a number of miners equal to the number of registered holders; if distant more than one mile and less than five miles, 10 acres, to be worked with a number of miners equal to the number of registered holders.

10. No traverse connection lines or travelling expenses shall be chargeable on the survey of such reward leases.

11. If the discovery is of some mineral or minerals other than tin, silver, antimony, gold, or coal, twice the areas specified in Regulation 9 may be granted as reward leases with no addition to the labour conditions.

Given under my Hand and Seal, at Government House, Brisbane, this thirteenth day of April, in the year of our Lord one thousand eight hundred and eighty-eight, and in the fifty-first year of Her Majesty's reign.

By Command,

For the Secretary for Mines and Works,

The tensions, in fact, represent the weight of the vapour.

* NOTE.—The average death-rate of children under 1 year, as compared to births, during the ten years ended 31st December, 1886, throughout the whole of Queensland, was 13·44. *Vide* Vital Statistics of 1886.

REMARKS.

Mean pressure was 0.016 higher, and mean temperature was two degrees lower than during February. The mean vapour tension was .142 lower, and the relative humidity 13 % lower than during last month. Note the wide range of pressure, viz., 0.853 as against 0.310 of the previous month. Heavy dews were frequently noted at 9 p.m. Lightning on 13th and 27th. Local dust storms on 9th, 15th, 16th, 17th. The dust storms accompanied the strong westerly winds which form a prominent characteristic of the northern edge of those areas of low pressure known as "V-depressions." Such currents produce cloudless skies in south-east Queensland, hence the small amount of cloud as compared with last month. The prevailing southerly winds proved that the anti-cyclones referred to in last month's "Remarks" had made northerly and had extended towards central Queensland, thus following the sun in declination, in strict accordance with the laws of meteorological physics. The small amount of rainfall as against the total for last month will arrest attention. The mean temperature of the Brisbane River about 9 a.m. at Kangaroo Point was 77.5.

March, 1888, compared with March, 1887.

The increase of mean pressure is still a feature, as in the comparisons for January and February, but not so marked as before, the mean barometer being 0.014 higher than in March a year ago. The mean shade temperature of the air was 2.1 degrees below that of March, 1887. The mean vapour tension was .170 lower, and the mean percentage of relative humidity 16 % lower than twelve months ago. Examining the winds, we find that during the month under review northerly currents were observed to be one less, north-east four less, easterly seven less, south-east five less, and southerly nine more than in March, 1887. Again, during this period two south-west winds and seven westerly winds were noted, whereas during the corresponding period of last year no south-west and west winds were recorded. Rain is the most capricious of all meteorological phenomena. In March, 1887, 12.088 inches formed the total as against 0.711 inches for March, 1888.

The Observatory, which was re-organised on 1st January, 1887, is conducted entirely in accordance with the Royal Meteorological Society's Rules.

No. 637.

THE Commandant observed that after the recent Encampment, and before the return of the men of up-country Corps, the Officers of several of those Corps appeared to think their duties were ended, and that their men might shift for themselves. Whilst the Commandant is quite ready to make such arrangements as will allow members of such Corps attending to private affairs when visiting Brisbane, he cannot too strongly condemn the conduct of those Officers who, during inclement weather, never thought it necessary to inquire after the welfare or comfort of their men, and in several cases allowed their Companies to return home without an Officer in charge to look after their interests.

No. 638.

INSTANCES of the careless use of ammunition having been brought to notice, the Commandant directs that in future—

- (a) Ball ammunition shall not be issued except for use on authorised Rifle Ranges;
- (b) No ball ammunition is to be taken away from the Rifle Range by men after shooting;

- (c) Before blank ammunition is delivered to the men, Officers will in every case ascertain that no ball ammunition remains in the pouches;

- (e) After a parade where blank ammunition has been issued, Officers Commanding Corps will see that the balance is collected on parade, and they will carefully inspect the men's pouches after the collection has been made, and before dismissing the men.

No. 639.

It is notified for information that Amended Regulations for the general government, discipline, and management of the Land Force were duly proclaimed in the *Government Gazette* of the 7th inst. All books now in use must be corrected accordingly.

Proceedings for Enlistment.

80. (1) Every person authorised to enlist recruits in the regular forces (in this Act referred to as the "recruiter") shall give to every person offering to enlist a notice in the form for the time being authorised by a Secretary of State, stating the general requirements of attestation and the general conditions of the contract to be entered into by the recruit, and directing such person to appear before a justice of the peace at the time and place therein mentioned. (6) The competent military authority, if satisfied that there is any error in the attestation paper of a recruit, may cause the recruit to attend before some justice of the peace, and that justice, if satisfied that such error exists, and is not so material as to render it just that the recruit should be discharged, may amend the error in the attestation paper, and the paper as amended shall thereupon be deemed as valid as if the matter of the amendment had formed part of the original matter of such paper.

(7) Where the regulations of a Secretary of State under this part of this Act require duplicate attestation papers to be signed and attested, this section shall apply to both such duplicates, and in the event of any amendment of an attestation paper the amendment shall be made in both of the duplicate attestation papers.*

Position of
counsel at
courts-martial.

129. Whereas it is expedient to make provision respecting the conduct of counsel when appearing on behalf of the prosecution or defence at general courts-martial in pursuance of rules under this Act, be it therefore enacted as follows:

(1) Any conduct of a counsel which would be liable to censure, or a contempt of court, if it took place before Her Majesty's High Court of Justice in England, shall likewise be deemed liable to censure, or a contempt of court, in the case of a court-martial; and the rules laid down for the practice of courts-martial and the guidance of counsel shall be binding on counsel appearing before such courts-martial, and any wilful disobedience of such rules shall be professional misconduct, and, if persevered in, be deemed a contempt of court.

(2) Where a counsel is guilty of conduct liable to censure, or a contempt of court, such offence shall be deemed to be an offence within the meaning of section 126 of this Act, and the president of the court-martial may certify the same to a court of law accordingly; and the court of law to which the same is certified shall deal with such offence in the same manner as if it had been committed in a proceeding before that court.

(3) A court-martial may, by order under the hand of the president, cause a counsel to be removed from the court who is guilty of such an offence as may, in the opinion of the court-martial, require his removal from court, but in every such case the president shall certify the offence committed to a court of law in manner provided by the above-mentioned section.

Provision in case
of insane
persons.

130. (1) Where it appears on the trial by court-martial of a person charged with an offence that such person is by reason of insanity unfit to take his trial, the court shall find specially that fact; and such person shall be kept in custody in the prescribed manner until the directions of Her Majesty thereon are known, or until any earlier time at which such person is fit to take his trial.

(2) Where on the trial by court-martial of a person charged with an offence it appears that such person committed the offence, but that he was insane at the time of the commission thereof, the court shall find specially the fact of his insanity, and such person shall be kept in custody in the prescribed manner until the directions of Her Majesty thereon are known.

(3) In either of the above cases Her Majesty may give orders for the safe custody of such person during her pleasure, in such place and in such manner as Her Majesty thinks fit.

(4) A finding under this section shall be subject to confirmation in like manner as any other finding.

General Provisions as to Prisons.

131. (1) A Secretary of State may from time to time make arrangements with the Governor-General of India or the governor of a colony for the reception in any prison in India or in such colony of prisoners under this Act, and of deserters or absentees without leave from Her Majesty's service, on payment of such sums as are provided by the arrangement, and the governor of any prison to which any such arrangement relates shall be under the same obligation as the governor of a prison in the United Kingdom to receive and detain such prisoners, deserters, and absentees without leave:

(2) Provided that where a prisoner has been sentenced in India or in a colony to a term of imprisonment exceeding twelve months or to a term of penal servitude, he shall be transferred as soon as practicable to a prison or convict establishment within the United Kingdom, unless in the case of imprisonment the court shall for special reasons otherwise order, there to undergo his sentence; or unless he belongs to a class with respect to which a Secretary of State has declared that, by reason of the climate or place of his birth or the place of his enlistment, or otherwise, it is not beneficial to the prisoner to transfer him to the United Kingdom; every such declaration shall be laid before both Houses of Parliament.

(3) Any order which can be made under this section by the court may be made by the confirming authority in confirming the finding and sentence, and in the case of any commutation or remission of sentence, may be made by the authority commuting or remitting the sentence.

132. (1) The governor of every prison in the United Kingdom, and the governor of every prison in India or a colony who is under the same obligation as the governor of a prison in the United Kingdom, shall receive and confine, until discharged or delivered over in due course of law, all prisoners sent to such prison in pursuance of this Act, and every person delivered into his custody as a deserter or absentee without leave by any person conveying him under legal authority, on production of the warrant of a court of summary jurisdiction on which such deserter or absentee without leave has been taken or committed, or of some order from a Secretary of State, or from the Governor-General of India, or the governor of a colony, which order shall continue in force until the deserter or absentee without leave has arrived at his destination.

133. (1) It shall be lawful for a Secretary of State, and in India for the Governor-General, to set apart any building or part of a building under the control of the Secretary of State or Governor-General as a military prison, or as a public prison for the imprisonment of military prisoners, and to declare that any such building or part of a building shall be a military prison, or a public prison, as the case may be, and every military prison so declared shall be deemed to be a public prison within the meaning of the provisions of this Act relating to imprisonment, and if such prison is in India shall be deemed to be an authorised prison.

Establishment and regulation of military prisons.

(2) It shall be lawful for a Secretary of State, and in India for the Governor-General, from time to time to make, alter, and repeal rules for the government, management, and regulation of military prisons, and for the appointment and removal and powers of inspectors, visitors, governors, and officers thereof, and for the labour of military prisoners therein, and for the safe custody of such prisoners, and for the maintenance of discipline among them, and for the punishment by personal correction, not exceeding twenty-five lashes in the case of corporal punishment, restraint, or otherwise of offences committed by such prisoners, so, however, that such rules shall not authorise corporal punishment to be inflicted for any offence in addition to the offences for which such punishment can be inflicted in pursuance of "The Prison Act, 1865," and "The Prison Act, 1877," nor render the imprisonment more severe than it is under the law in force for the time being in any public prison in England, subject to "The Prison Act, 1877," and provided that all the regulations in "The Prison Act, 1865," and in "The Prison Act, 1877," as to the duties of gaolers, medical officers, and coroners shall be contained in such rules, so far as the same can be made applicable.

The commanding officer shall cause notice to be given to the nearest magistrate, duly authorised to hold inquests, and such magistrate shall hold an inquest into the cause of any such death, in the manner and with the powers provided in the case of similar inquiries held under the law for the time being in force in India for regulating criminal procedure.

(4) Where from any cause there is no competent civil authority available, the commanding officer shall convene a court of inquest. Such court shall be convened and shall hold the inquest in such manner as may be prescribed.

(5) Such rules may apply to such prisons any enactments of "The Prison Act, 1865," imposing punishments on any persons not prisoners.

28 & 29 Vic., c. 126.

(6) All rules made by a Secretary of State in pursuance of this section shall be laid before Parliament as soon as practicable after they are made, if Parliament be then sitting, and if not, as soon as practicable after the commencement of the then next session of Parliament.

134. No soldier shall be confined longer than is absolutely necessary in prisons other than military prisons in India and the colonies where the rules for the government and management of such prisons differ from those made by the Governor-General of India and a Secretary of State in the case of India and the colonies respectively.

Restrictions on confinement in prisons in India or colonies, not being military prisons.

135. Whereas it is expedient that a clear difference should be made between the treatment of prisoners convicted of breaches of discipline and the treatment of prisoners convicted of offences of an immoral, dishonest, shameful, or criminal character, a Secretary of State shall from time to time make rules for the classification and treatment of such prisoners.

DEPARTMENT OF AGRICULTURE.

RUST-RESISTING WHEAT.

THE Department of Agriculture have for free distribution in quantities of half-bushels, amongst farmers who grow wheat upon their holdings, a certain amount of wheat which has stood many experiments for its rust-resisting qualities. The wheat, which has been experimented upon by Messrs. Joyce Bros., Dalby, and by Dr. Bancroft, is of three varieties—Indian Bearded, Indian Beardless, and White Wheat. All have been proved rust-resisting on high land, whilst the former has been tested on low scrub land. Subjoined is an extract from letters received on the subject. Applications for this wheat to be lodged with the Land Agents at Warwick, Toowoomba, Dalby, Roma, and Allora.

EXTRACT FROM LETTERS RELATIVE TO RUST-RESISTING WHEAT FOR DISTRIBUTION BY THE DEPARTMENT OF AGRICULTURE.

'From Joyce Bros., Cregmore, Dalby, to Under Secretary for Agriculture.

"There is no doubt as to the rust-proof qualities of the wheat, Dr. Bancroft having tested it for years, and his only doubt being the rich black soil of the Downs; and last year, which was a very rusty year, we tested between lines of very rusty specimens and it was perfectly clean. Some Victorian farmers who were here as delegates to inspect land pronounced it as the only perfectly clean straw they had seen in Queensland. Messrs. Kates and Hayes, of Allora and Warwick, have both certified to its being good milling wheat, and offered not only last year, but this, top market quotations for milling purposes, although it is well known that millers usually object to the ordinary samples of Indian wheat as being too vitreous; also, in a leader some time ago, *re* rust-proof wheat, in the *Warwick Argus*, special mention was made of the excellent quality of flour made from our samples of wheat by Mr. Hayes. We have also found the wheat very hardy, and although it has been a very dry spring here it yielded well."

Date of letter, 5th January, 1888.

PETER McLEAN,
Under Secretary for Agriculture.

DEPARTMENT OF AGRICULTURE.

PRODUCERS are invited to forward to the Department of Agriculture in Brisbane, small quantities of any specially fine samples of Wheat, Maize, Sugar, Tobacco, Rice, Cotton, or other Farm Produce grown in Queensland, such as will keep in a dry state, and are suitable for exhibition in small quantities. THE following Extracts from a Letter addressed to the Imperial German Consul for Queensland, by His Excellency the Governor of the German Protectorate in New Guinea, are published for general information.

S. W. GRIFFITH.

* * * * *

"FOR vessels from Queensland returning formerly engaged islanders to the Protectorate it will be necessary to act in conformity with section fourteen of the abovenamed Regulations, the tenor of which runs as follows:—

"Vessels returning island labourers to the Protectorate of the New Guinea Company are obliged to call, before landing any of them, at the seat of the station-officer in whose district a dépôt is established or the home of the returning labourers is situated. A list is to be made of all returning labourers before departure from the shipping port, according to Schedule D, which is to be signed by the captain of the vessel and verified by the proper local authority, if possible, at the Imperial German Consulate. The columns 1, 15, and 16, in the first instance, are not to be filled up. Only after permission is obtained from the station-officer, and properly signified on the list, may the labourers be landed and the columns 1, 15, and 16 filled in.

"The captain has to report the effected landing to the station-officer in charge, who certifies accordingly on the list.

"For the purpose of landing islanders belonging to the Bismark-Archipelago, vessels will have to call at the chief station, Kerrawarra (near Mioko), New Lauenberg (formerly Duke of York Island), and be reported, by the commander, to the station-officer (Count Pfeil).

"The controlling station for the landing of islanders destined for the German Part Protectorate of the Solomons Group is for the present reserved.

* * * * *

"With regard to recruiting islanders as labourers in such part of the Protectorate of the New Guinea Company in which it has not been prohibited by the Imperial Commissioner, Herr von Oertzen, in the Regulations dated 20th March, 1886—British subjects in possession of plantations in the Protectorate of the New Guinea Company stand according to the declaration of 10th April, 1886, referring to the mutual freedom of trade and commerce between the German and British possessions and protectorates in the Western Pacific Ocean, on the same footing as the German owners of plantations."

THURSDAY ISLAND CEMETERY.

Colonial Secretary's Office,
Brisbane, 12th April, 1888.

HIS Excellency the Governor, with the advice of the Executive Council, has been pleased to approve of the following Regulations made by the Trustees of the Thursday Island Cemetery.

B. B. MORETON.

REGULATIONS.

1. The hours appointed for the performance of funerals are from 8 o'clock a.m. to sunset, throughout the year. On Sundays the hours appointed for funerals are from 10 o'clock a.m. to 5 o'clock p.m. throughout the year. No funerals will be allowed to take place at any other time, unless in cases of great emergency and upon the written authority of two trustees, and subject to such conditions as they may impose.

2. The several fees and charges set forth in Schedule A shall be payable in respect of the several matters therein specified. All fees and charges must be paid at the time of making application for the thing or matter in respect of which they are payable.

3. The trustees or person appointed by them for that purpose shall determine the size and position of all graves or vaults to be sunk in the Cemetery. No catacombs will be allowed.

4. No person shall be allowed to prepare a grave within the Cemetery except the person appointed by the trustees or their officer.

5. All graves made in the Cemetery shall be sunk at least six feet. Not more than two bodies of adults shall be buried in one grave.

6. Applications for interment, signed by the applicant and accompanied by the proper fees, must be made in writing to the trustees or the secretary at his office, in the form set forth, and must contain the particulars specified, in Schedule B.

7. An authority in the form of Schedule C shall thereupon be given, which shall be the officer's warrant for preparing the grave.

8. The person applying for the interment must deliver to the officer appointed the authority so given, together with a memorandum containing the particulars specified in Schedule D and signed by the applicant.

9. The hour named in the application and in the last-mentioned memorandum shall be the hour at which the funeral procession is to arrive at the Cemetery, and the hour so named must be punctually observed.

10. All charges may be remitted on the burial of any poor person in the Cemetery (except in the case of burial by persons under contract with the Government or any public hospital to perform such burials) upon its being proved to the satisfaction of at least two trustees that such person was a pauper or that the relations and friends of the deceased are unable to pay the cost and charges of such burial. Where paupers are buried by such contractors the charge will be in accordance with the scale set forth in Schedule A.

11. Orders for interment must be given at the Cemetery at least four working hours before the hour fixed for the funeral, otherwise an extra charge will be made in accordance with the scale in Schedule A. No free interment will be allowed without such notice.

12. No funeral will be allowed to take place without a certificate of the registration of the death, signed by the registrar of the district, or a certificate of a coroner or magistrate holding an inquest or inquiry, except under circumstances of the most urgent nature, and upon the written authority of two trustees, or a certificate of some duly qualified medical practitioner; such certificate or authority must be delivered to the officer appointed, before the funeral enters the gates of the Cemetery, but it is to be understood that the certificate of the two trustees or the medical practitioner will only be accepted in the absence from the district of the registrar.

13. Applications for permission to have a private grave prepared, a vault constructed, or a monument, a tombstone, or a tablet erected, must be made to

the trustees or the person authorised by them for that purpose, whereupon, if approved of, a permission in the form set forth in Schedule E will, if required, be granted to the person applying, on payment of the charges set forth in Schedule A in that behalf.

14. Persons requiring brick graves or vaults to be made in the Cemetery must submit plans of them for the approval of the trustees, and construct them under the direction of a surveyor appointed by the trustees. Every coffin placed in a vault or brick grave must be bricked in, cemented, and covered with a slab of stone, slate, or iron, and every such coffin must have on the lid a lead or copper plate with the name of the deceased stamped on it.

15. A copy of every epitaph or inscription proposed to be engraven or placed on any monument, tombstone, or tablet, must be submitted to the trustees for approval, and they may withhold such approval if the proposed epitaph or inscription appears to them inappropriate or unbecoming.

16. The trustees may order the removal of any monument or tombstone or other erection which shall not have been sanctioned by them, or of any trees and shrubs planted on or near any grave which in their opinion are objectionable.

17. All monuments, vaults, graves, and grave-stones must be kept in repair and proper condition by or at the expense of the owners.

18. The officer or other persons employed by the trustees shall not receive any gratuity for the performance of their duties without the special permission of the trustees, to be granted upon application made to them by the persons interested. Any infringement of this rule will lead to the immediate dismissal of such officer or other person offending.

19. A plan of the Cemetery, a register of all special grants, and of the position of all graves in the Cemetery, will be kept by the secretary and trustees, and be open to inspection upon the payment of the charges mentioned in Schedule A.

20. The Cemetery will be open daily to the public, from sunrise to sunset.

21. The person authorised by the trustees in that behalf has authority to exercise all the powers conferred upon a servant of the trustees by sections thirty-six and thirty-nine of "The Cemetery Act, 1865," in respect of any person who shall behave indecorously or commit any trespass or injury to the trees, flowers, or erections, or otherwise infringe any of the provisions of the said Act.

QUEENSLAND Government Gazette.

PUBLISHED BY AUTHORITY.

VOL. XLIII.] SATURDAY, 28TH APRIL, 1888.

[No. 93.]

Chief Secretary's Office,
Brisbane, 27th April, 1888.

HIS Excellency the Governor has been pleased to direct the publication, for general information, of the following Circular Despatch and Enclosure received from the Secretary of State for the Colonies.

HENRY JORDAN.

SIR,

Downing street, 29th February, 1888.

With reference to my Circular Despatch of the 18th November last,* I have the honour to transmit to you, for information and publication in the Colony under your Government, a copy of an Order of the Queen in Council for bringing into effect from the sixth of December, 1887, the Convention for the creation of an International Union for the protection to be given by way of copyright to the authors of literary and artistic works which was signed at Berne on the 9th of September, 1886.

2. I take this opportunity of pointing out to you that the Imperial Copyright Acts for engraving and sculpture do not apply to the Colonies, and that apparently the Act of 1862 (25 and 26 Vic., cap. 63) giving copyright in paintings and photographs does not so apply. I would request your attention to sections 4, 8, 9, 10 of the Act of 1862, which, you will observe, apply to the United Kingdom only; and would invite you to compare the language of section 1 of that Act with "*The Copyright Act of 1842*" (5 and 6 Vic., cap. 45), which (sec. 29) expressly gives literary copyright throughout Her Majesty's Dominions.

3. It would seem, therefore, that although the effect of section 8 of the Act of 1886 may be to protect the owner of copyright in works of art produced in a colony against piracy in the United Kingdom, he would not be entitled to similar protection in another colony.

4. I have therefore to request that I may be informed at your early convenience whether it is the wish of your Government that legislation should be initiated in the Imperial Parliament for extending to works of art produced in a colony the same privileges of copyright throughout the Empire as are now possessed by literary works produced in a colony.

5. I may indicate the following as a further reason which seems to render it desirable that such legislation should be had:—A colonist producing a work of art in a foreign country would, under the Convention, appear to be entitled to such copyright as under the laws of that country would be enjoyed by its subjects; but if that country finds that reciprocal advantages are not obtainable by its subjects in the colonies, it might be inclined to alter its law so as to withdraw these advantages from colonists residing in such country.

I have, &c.,

The Officer Administering the Government of Queensland.

KNUTSFORD.

[Extract from the "*London Gazette*" of Friday, 2nd December, 1887.]

At the Court at Windsor, the twenty-eighth day of November, 1887.

Present:

The Queen's Most Excellent Majesty.

Lord President.

Lord Stanley of Preston.

Secretary Sir Henry Holland, Bart.

WHEREAS the Convention of which an English translation is set out in the First Schedule to this Order has been concluded between Her Majesty the Queen of the United Kingdom of Great Britain and Ireland and the foreign countries named in this Order, with respect to the protection to be given by way of copyright to the authors of literary and artistic works:

And whereas the ratifications of the said Convention were exchanged on the fifth day of September, one thousand eight hundred and eighty-seven, between Her Majesty the Queen and the Governments of the foreign countries following, that is to say:—

Belgium, France, Germany, Hayti, Italy, Spain, Switzerland, Tunis:

And whereas Her Majesty in Council is satisfied that the foreign countries named in this Order have made such provisions as it appears to Her Majesty expedient to require for the protection of authors of works first produced in Her Majesty's dominions:

Now, therefore, Her Majesty, by and with the advice of Her Privy Council, and by virtue of the authority committed to Her by "*The International Copyright Acts, 1844 to 1886*," doth order, and it is hereby ordered, as follows:—

1. The Convention as set forth in the First Schedule to this Order, shall, as from the commencement of this Order, have full effect throughout Her Majesty's dominions, and all persons are enjoined to observe the same.

2. This Order shall extend to the foreign countries following, that is to say:—

Belgium, France, Germany, Hayti, Italy, Spain, Switzerland, Tunis;

and the above countries are in this Order referred to as the foreign countries of the Copyright Union, and those foreign countries, together with Her Majesty's dominions, are in this Order referred to as the countries of the Copyright Union.

3. The author of a literary or artistic work which, on or after the commencement of this Order, is first produced in one of the foreign countries of the Copyright Union shall, subject as in this Order and in "*The International Copyright Acts, 1884 to 1886*," mentioned, have, as respects that work throughout Her Majesty's dominions, the same right of copyright, including any right capable of being conferred by an Order in Council under section two or section five of "*The International Copyright Act, 1884*," or under any other enactment, as if the work had been first produced in the United Kingdom, and shall have such right during the same period;

Provided that the author of a literary or artistic work shall not have any greater right or longer term of copyright therein, than that which he enjoys in the country in which the work is first produced.

The author of any literary or artistic work first produced before the commencement of this Order shall have the rights and remedies to which he is entitled under section six of "*The International Copyright Act, 1886*."

The rights conferred by "*The International Copyright Acts, 1884 to 1886*" shall, in the case of a literary or artistic work first produced in one of the foreign countries of the Copyright Union by an author who is not a subject or citizen of any of the said foreign countries, be limited as follows, that is to say, the author shall not be entitled to take legal proceedings in Her Majesty's dominions for protecting any copyright in such work, but the publisher of such work shall, for the purpose of any legal proceedings in Her Majesty's dominions for protecting any copyright in such work, be deemed to be entitled to such copyright as if he were the author, but without prejudice to the rights of such author and publisher as between themselves.

5. A literary or artistic work first produced simultaneously in two or more countries of the Copyright Union shall be deemed for the purpose of copyright to have been first produced in that one of those countries in which the term of copyright in the work is shortest.

6. Section six of "*The International Copyright Act, 1852*," shall not apply to any dramatic piece to which protection is extended by virtue of this Order.

7. The Orders mentioned in the Second Schedule to this Order are hereby revoked;

Provided that neither such revocation nor anything else in this Order, shall prejudicially affect any right acquired or accrued before the commencement of this Order, by virtue of any Order hereby revoked, and any person entitled to such right shall continue entitled thereto, and to the remedies for the same, in like manner as if this Order had not been made.

8. This Order shall be construed as if it formed part of "*The International Copyright Act, 1886*."

9. This Order shall come into operation on the sixth day of December, one thousand eight hundred and eighty-seven, which day is in this Order referred to as the commencement of this Order.

And the Lords Commissioners of Her Majesty's Treasury are to give the necessary orders herein accordingly.

C. L. PEEL.

FIRST SCHEDULE.

Copyright Convention.

Convention for protecting effectively, and in as uniform a manner as possible, the rights of authors over their literary and artistic works. Made on the fifth day of September, one thousand eight hundred and eighty-seven, between Her Majesty the Queen of the United Kingdom of Great Britain and Ireland, Empress of India; His Majesty the German Emperor, King of Prussia; His Majesty the King of the Belgians; Her Majesty the Queen Regent of Spain, in the name of His Catholic Majesty the King of Spain; the President of the French Republic; the President of the Republic of Haiti; His Majesty the King of Italy; the Federal Council of the Swiss Confederation; His Highness the Bey of Tunis.

[The following is an English Translation of the Convention, with the omission of the formal beginning and end.]

ARTICLE I.

The Contracting States are constituted into an Union for the protection of the rights of authors over their literary and artistic works.

ARTICLE II.

Authors of any of the countries of the Union, or their lawful representatives, shall enjoy in the other countries for their works, whether published in one of those countries or unpublished, the rights which the respective laws do now or may hereafter grant to natives.

The enjoyment of these rights is subject to the accomplishment of the conditions and formalities prescribed by law in the country of origin of the work, and cannot exceed in the other countries the term of protection granted in the said country of origin.

The country of origin of the work is that in which the work is first published, or, if such publication takes place simultaneously in several countries of the Union, that one of them in which the shortest term of protection is granted by law.

For unpublished works the country to which the author belongs is considered the country of origin of the work.

ARTICLE III.

The stipulations of the present Convention apply equally to the publishers of literary and artistic works published in one of the countries of the Union, but of which the authors belong to a country which is not a party to the Union.

ARTICLE IV.

The expression "literary and artistic works" comprehends books, pamphlets, and all other writings; dramatic or dramatico-musical works, musical compositions with or without words; works of design, painting, sculpture, and engraving; lithographs, illustrations, geographical charts, plans, sketches, and plastic works relative to geography, topography, architecture, or science in general; in fact, every production whatsoever in the literary, scientific, or artistic domain which can be published by any mode of impression or reproduction.

ARTICLE V.

Authors of any of the countries of the Union, or their lawful representatives, shall enjoy in the other countries the exclusive right of making or authorising the translation of their works until the expiration of ten years from the publication of the original work in one of the countries of the Union.

For works published in incomplete parts ("livraisons") the period of ten years commences from the date of publication of the last part of the original work.

For works composed of several volumes published at intervals, as well as for bulletins or collections ("cahiers") published by literary or scientific societies, or by private persons, each volume, bulletin, or collection is, with regard to the period of ten years, considered as a separate work.

In the cases provided for by the present Article, and for the calculation of the period of protection, the thirty-first December of the year in which the work was published is admitted as the date of publication.

ARTICLE VI.

Authorised translations are protected as original works. They consequently enjoy the protection stipulated in Articles II. and III. as regards their unauthorised reproduction in the countries of the Union.

It is understood that, in the case of a work for which the translating right has fallen into the public domain, the translator cannot oppose the translation of the same work by other writers.

ARTICLE VII.

Articles from newspapers or periodicals published in any of the countries of the Union may be reproduced in original or in translation in the other countries of the Union, unless the authors or publishers have expressly forbidden it. For periodicals it is sufficient if the prohibition is made in a general manner at the beginning of each number of the periodical.

This prohibition cannot in any case apply to articles of political discussion, or to the reproduction of news of the day or current topics.

ARTICLE VIII.

As regards the liberty of extracting portions from literary or artistic works for use in publications destined for educational or scientific purposes, or for chrestomathies, the matter is to be decided by the legislation of the different countries of the Union, or by special arrangements existing or to be concluded between them.

ARTICLE IX.

The stipulations of Article II. apply to the public representation of dramatic or dramatico-musical works, whether such works be published or not.

Authors of dramatic or dramatico-musical works, or their lawful representatives, are, during the existence of their exclusive right of translation, equally protected against the unauthorised public representation of translations of their works.

The stipulations of Article II. apply equally to the public performance of unpublished musical works, or of published works in which the author has expressly declared on the title page or commencement of the work that he forbids the public performance.

ARTICLE X.

Unauthorised indirect appropriations of a literary or artistic work, of various kinds, such as *adaptations, arrangements of music, &c.*, are specially included amongst the illicit reproductions to which the present Convention applies, when they are only the reproduction of a particular work, in the same form, or in another form, with non-essential alterations, additions, or abridgments, so made as not to confer the character of a new original work.

It is agreed that, in the application of the present Article, the tribunals of the various countries of the Union will, if there is occasion, conform themselves to the provisions of their respective laws.

ARTICLE XI.

In order that the authors of works protected by the present Convention shall, in the absence of proof to the contrary, be considered as such, and be consequently admitted to institute proceedings against pirates before the courts of the various countries of the Union, it will be sufficient that their name be indicated on the work in the accustomed manner.

For anonymous or pseudonymous works, the publisher whose name is indicated on the work is entitled to protect the rights belonging to the author. He is, without other proof, reputed the lawful representative of the anonymous or pseudonymous author.

It is, nevertheless, agreed that the tribunals may, if necessary, require the production of a certificate from the competent authority to the effect that the formalities prescribed by law in the country of origin have been accomplished, as contemplated in Article II.

ARTICLE XII.

Pirated works may be seized on importation into those countries of the Union where the original work enjoys legal protection.

The seizure shall take place conformably to the domestic law of each State.

ARTICLE XIII.

It is understood that the provisions of the present Convention cannot in any way derogate from the right belonging to the Government of each country of the Union to permit, to control, or to prohibit, by measures of domestic legislation or police, the circulation, representation, or exhibition of any works or productions in regard to which the competent authority may find it necessary to exercise that right.

ARTICLE XIV.

Under the reserves and conditions to be determined by common agreement,* the present Convention applies to all works which at the moment of its coming into force have not yet fallen into the public domain in the country of origin.

ARTICLE XV.

It is understood that the Governments of the countries of the Union reserve to themselves respectively the right to enter into separate and particular arrangements between each other, provided always that such arrangements confer upon authors or their lawful representatives more extended rights than those granted by the Union, or embody other stipulations not contrary to the present Convention.

ARTICLE XVI.

An international office is established, under the name of the "Office of the International Union for the Protection of Literary and Artistic Works."

This office, of which the expenses will be borne by the Administrations of all the countries of the Union, is placed under the high authority of the Superior Administration of the Swiss Confederation, and works under its direction. The functions of this office are determined by common accord between the countries of the Union.

ARTICLE XVII.

The present Convention may be submitted to revisions in order to introduce therein amendments calculated to perfect the system of the Union.

Questions of this kind, as well as those which are of interest to the Union in other respects, will be considered in Conferences to be held successively in the countries of the Union by delegates of the said countries.

It is understood that no alteration in the present Convention shall be binding on the Union except by the unanimous consent of the countries composing it.

ARTICLE XVIII.

Countries which have not become parties to the present Convention, and which grant by their domestic law the protection of rights secured by this Convention, shall be admitted to accede thereto on request to that effect.

Such accession shall be notified in writing to the Government of the Swiss Confederation, who will communicate it to all the other countries of the Union.

Such accession shall imply full adhesion to all the clauses and admission to all the advantages provided by the present Convention.

ARTICLE XIX.

Countries acceding to the present Convention shall also have the right to accede thereto at any time for their Colonies or foreign possessions.

They may do this either by a general declaration comprehending all their Colonies or possessions within the accession, or by specially naming those comprised therein, or by simply indicating those which are excluded.

ARTICLE XX.

The present Convention shall be put in force three months after the exchange of the ratifications, and shall remain in effect for an indefinite period until the termination of a year from the day on which it may have been denounced.

Such denunciation shall be made to the Government authorised to receive accessions, and shall only be effective as regards the country making it, the Convention remaining in full force and effect for the other countries of the Union.

ARTICLE XXI.

The present Convention shall be ratified, and the ratifications exchanged at Berne, within the space of one year at the latest.

ADDITIONAL ARTICLE.

The Convention concluded this day in no wise affects the maintenance of existing Conventions between the Contracting States, provided always that such Conventions confer on authors, or their lawful representatives, rights more extended than those secured by the Union, or contain other stipulations which are not contrary to the said Convention.

FINAL PROTOCOL.

1. As regards Article IV, it is agreed that those countries of the Union where the character of artistic works is not refused to photographs, engage to admit them to the benefits of the Convention concluded to-day, from the date of its coming into effect. They are, however, not bound to protect the authors of such works further than is permitted by their own legislation, except in the case of international engagements already existing, or which may hereafter be entered into by them.

It is understood that an authorised photograph of a protected work of art shall enjoy legal protection in all the countries of the Union, as contemplated by the said Convention for the same period as the principal right of reproduction of the work itself subsists, and within the limits of private arrangements between those who have legal rights.

2. As regards Article IX, it is agreed that those countries of the Union whose legislation implicitly includes choreographic works amongst dramatico-musical works expressly admit the former works to the benefits of the Convention concluded this day.

It is, however, understood that questions which may arise on the application of this clause shall rest within the competence of the respective tribunals to decide.

3. It is understood that the manufacture and sale of instruments for the mechanical reproduction of musical airs which are copyright, shall not be considered as constituting an infringement of musical copyright.

* See paragraph 4 of Final Protocol.

4. The common agreement alluded to in Article XIV. of the Convention is established as follows :—

The application of the Convention to works which have not fallen into the public domain at the time when it comes into force, shall operate according to the stipulations on this head which may be contained in special Conventions either existing or to be concluded.

In the absence of such stipulations between any countries of the Union, the respective countries shall regulate, each for itself, by its domestic legislation, the manner in which the principle contained in Article XIV. is to be applied.

5. The organization of the International Office established in virtue of Article XVI. of the Convention, shall be fixed by a regulation which shall be drawn up by the Government of the Swiss Confederation.

The official language of the International Office will be French.

The International Office will collect all kinds of information relative to the protection of the rights of authors over their literary and artistic works. It will arrange and publish such information. It will study questions of general utility likely to be of interest to the Union, and by the aid of documents placed at its disposal by the different Administrations, will edit a periodical publication in the French language treating questions which concern the Union. The Governments of the countries of the Union reserve to themselves the faculty of authorising, by common accord, the publication by the office of an addition in one or more other languages if experience should show this to be requisite.

The International Office will always hold itself at the disposal of members of the Union, with the view to furnish them with any special information they may require relative to the protection of literary and artistic works.

The Administration of a country where a Conference is about to be held will prepare the programme of the Conference with the assistance of the International Office.

The Director of the International Office will attend the sittings of the Conferences, and will take part in the discussions without a deliberative voice. He will make an annual report on his administration, which shall be communicated to all the members of the Union.

The expenses of the office of the International Union shall be shared by the contracting States. Unless a fresh arrangement be made, they cannot exceed a sum of sixty thousand francs a year. This sum may be increased by the decision of one of the Conferences provided for in Article XVII.

The share of the total expense to be paid by each country shall be determined by the division of the contracting and acceding States into six classes, each of which shall contribute in the proportion of a certain number of units :—

First class	25 units.
Second class	20 "
Third class	15 "
Fourth class	10 "
Fifth class	5 "
Sixth class	3 "

These co-efficients will be multiplied by the number of States of each class, and the total product thus obtained will give the number of units by which the total expense is to be divided. The quotient will give the amount of the unity of expense. Each State will declare, at the time of its accession, in which of the said classes it desires to be placed.

The Swiss Administration will prepare the budget of the office, superintend its expenditure, make the necessary advances, and draw up the annual account, which shall be communicated to all the other Administrations.

6. The next Conference shall be held at Paris, between four and six years from the date of the coming into force of the Convention.

The French Government will fix the date within these limits after having consulted the International Office.

7. It is agreed that, as regards the exchange of ratifications contemplated in Article XXI., each contracting party shall give a single instrument, which shall be deposited with those of the other States, in the Government Archives of the Swiss Confederation. Each party shall receive in exchange a copy of the procès-verbal of the exchange of ratifications, signed by the Plenipotentiaries present.

The present Final Protocol, which shall be ratified with the Convention concluded this day, shall be considered as forming an integral part of the said Convention, and shall have the same force, effect, and duration.

The whole contract to be completed and handed over to the Government within six (6) weeks from the notification of the acceptance of the Tender.

General Conditions.

1. Payment will be made monthly to the extent of seventy-five (75) per cent. on the value of the work reported to have been completed by the officer appointed to inspect the same; but notwithstanding such report and payment on account, the

Superintendent of Electric Telegraphs, or other officer appointed by him in that behalf, shall have full power at any time afterwards, before final payment shall be made, of rejecting and condemning any of the work or materials in respect of which such report and payments may have been made. Certificates must be produced from the Chairmen of Divisional Boards, through whose Divisions the line has been taken, that no claims are made by them under Clause 4, before final payment will be made. The total balance will be paid when the entire contract shall have been completed to the satisfaction of the Government.

2. The Government reserves to itself the right to make use of the line for the transmission of messages prior to final completion. Such use of the line not to prejudice in any way the power to subsequently reject or condemn any portion of the work or materials.

3. The contractor may avail himself of the facilities afforded by "The Electric Telegraph Act" for obtaining materials, on signing a Bond indemnifying the Government against any claims for compensation arising from the action of the contractor: Provided always that it shall be lawful for the Superintendent, from moneys due to the contractor, if not otherwise settled, to satisfy any such claim he may see fit.

4. The contractor will be responsible for all claims for compensation for damage to fences or other property caused by the erection of the line, also for damage so caused to roads; and if such claims are not defrayed, the Superintendent is authorised to pay the same from any moneys due to the contractor.

5. Should the contractor fail to proceed in the execution of, or to complete, the work in the manner and at the rate of progress required by the Government, it shall be in the power of the Government, by a notice in the *Queensland Government Gazette*, to terminate the contract, as far as relates to the work remaining to be done, and to enforce the penalties for the non-fulfilment of the contract; and all sums of money which may be due to the contractor, together with all plant, materials, and implements in his possession on the ground, and all sums of money, whether named in the Bond to be entered into by the contractor or otherwise, as penalties for the non-fulfilment of the contract, shall be forfeited to the Government, and the amount shall be considered as ascertained damages for breach of contract.

6. A deposit of a sum equal to ten (10) per cent. of the total tender cost of the whole work must accompany each Tender, also a memorandum signed by the party tendering, and two responsible persons as sureties, agreeing to be answerable for the due performance of the contract within the time stipulated, in the event of the Tender being accepted; and undertaking in that event that they will severally execute and deliver at the Office of the Crown Solicitor, in Brisbane, within ten (10) days from the notification of the acceptance of the Tender, a Bond to Her Majesty in a sum equal to twenty (20) per cent. on the amount of the Tender.

7. The Government does not bind itself to accept the lowest or any Tender.

THE following Petition from a number of inhabitant householders in the town of Herberton and its vicinity, praying for the constitution as a Municipality of the area therein described, is published in pursuance of the provisions of "The Local Government Act of 1878."

HENRY JORDAN.

To His Excellency Sir ANTHONY MUSGRAVE, K.C.M.G., &c., &c., Governor of the Colony of Queensland.

The humble Petition of the undersigned inhabitant householders resident within the town of Herberton, county of Cardwell, parish of Herberton, in the Colony of Queensland, also of the undersigned inhabitant householders resident within the part sought to be affected, each of whom possesses rateable property therein, praying for an Order constituting a Municipality of all that portion of land hereinafter described and now known as Herberton, in the Colony of Queensland,

Humbly sheweth,—

1. That your Petitioners humbly pray that the area of ground or land hereinafter described may be constituted into a Municipality.

2. That the Municipality be named "Herberton."

3. That the boundaries of the proposed Municipality of Herberton may be defined to be nearly as possible the following:—*Boundaries*: On the south from junction of Nigger Creek with the Wild River up that creek and Bradlaugh Gully across Stewart's Range to Main Range south of the Moomin township; along that range to the head of Slaughter-yard Creek; thence down that creek in a south-easterly direction to the junction of the Wild River and Nigger Creek;—covering a radius of three (3) miles.

4. That the Council of the Municipality of Herberton aforesaid shall consist of seven (7) members.

5. That the Municipality of Herberton aforesaid shall not be subdivided.

6. That the township of Herberton aforesaid was established by Proclamation of the eighteenth day of January, 1882, and slightly enlarged by Proclamation of twenty-first of March, 1886.

7. That the now existing boundaries of the town of Herberton aforesaid are too limited and unsuited for a Municipality. Your Petitioners therefore have, after careful deliberations, formed the boundaries of the Municipality of Herberton aforesaid in the manner above referred to.

Prayer,—

Your Petitioners therefore pray that an Order may be made constituting Herberton aforesaid a Municipality.

And your Petitioners will ever pray, &c.
